DIVISION OF WATER RESOURCES

ORDER

APPLICATION 5997

PERMIT 3204

LICENSE 1068

ORDER ALLOWING CORRECTION OF DESCRIPTION
OF POINT OF DIVERSION AND PLACE OF USE

Licensee having established to the satisfaction of the State Engineer that the correction of description of point of diversion and place of use under Application 5997, Permit 3204, License 1068, for which petition was submitted on November 27, 1943, will not operate to the injury of any other legal user of water, the State Engineer so finds, and

IT IS ORDERED that permission be and the same is hereby granted to change the description of point of diversion under said Application 5997, Permit 3204, License 1068, to read as follows to-wit:

SOUTH FORTY EIGHT DEGREES, TWENTY THREE MINUTES WEST (S. 48° 23' W.) ONE THOUSAND SIXTY NINE AND TWO TENTHS (1069.2) FEET FROM THE NORTH-EAST CORNER OF SECTION 29, T. 24 N., R. 6 E., M.D.B. & M. AND BEING WITHIN THE NE $\frac{1}{4}$ OF NE $\frac{1}{4}$ OF SAID SECTION 29, and

IT IS FURTHER ORDERED that permission be and the same is hereby granted to change the description of place of use under said Application 5997, Permit 3204, License 1068, to read as follows to-wit:

WITHIN THE NW $\frac{1}{4}$ OF NE $\frac{1}{4}$ OF SECTION 29, T. 24 N., R. 6 E., M.D.B. & M.

WITNESS my hand and the seal of the Department of Public Works of the State of California this 6th day of December, 1943.

EDWARD HYATT, STATE ENGINEER

BY

Harold Conkling
Deputy State Engineer

STATE OF CALIFORNIA
DEPARTMENT OF PUBLIC WORKS
DIVISION OF WATER RESOURCES

License for Diversion and Use of Water

LICENSE 1068

DATE REC'D 4/22/36 PERMIT 5204

APPLICATION 5997

THIS IS TO CERTIFY, That Feather River Power Company, San Francisco, California

has made proof to the satisfaction of the Division of Water Resources of California of a right to the use of the waters of Muir Creek in Plumas County

tributary of North Fork of Feather River

for the purpose of industrial and fire protection uses

under Permit 5204 of the Division of Water Resources and that said right to the use of said waters has been perfected in accordance with the laws of California, the rules and regulations of the Division of Water Resources and the terms of the said permit; that the priority of the right herein confirmed dates from July 27, 1928;

that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to the amount actually beneficially used for said purposes and shall not exceed one and seventy-eight hundredths (1.78) cubic feet per second for industrial purposes or two and twenty-five hundredths (2.25) cubic feet per second total for industrial and fire protection purposes from January 1st to December 31st of each season, provided, however, that nothing herein contained shall be construed as confirming in licensee any right, which shall be good as against a subsequent appropriator, to an amount for fire protection purposes in excess of what is reasonably necessary to maintain an adequate reserve in storage for fire protection except when there exists an actual need thereof for fire fighting use.

0000116

The point of diversion of such water is located South sixty-six degrees East (S 66° E) seven hundred seventy-five (775) feet from Mineral Monument No. 18 of Waverly Location of Canton Placer Mines, being within the SW $\frac{1}{4}$ of the NE $\frac{1}{4}$ of projected Section 29, T 24 N, R 6 E, M.D.B. & M.

A description of the lands or the place where such water is put to beneficial use is as follows:

Within the NW $\frac{1}{4}$ of the NE $\frac{1}{4}$ and the SW $\frac{1}{4}$ of the NE $\frac{1}{4}$ of projected Section 29, T 24 N, R 6 E, M.D.B. & M.

The right to the diversion and use of the water aforesaid hereby confirmed is restricted to the point of diversion herein specified and to the lands or place of use herein described.

This license is granted and said appropriator takes all rights herein mentioned subject to the terms and conditions set forth in Section 20 of Chapter 586, Statutes 1913, which is as follows:

Sac. 20. All permits and licenses for the appropriation of water shall be under the terms and conditions of this act, and shall be effective for such time as the water actually appropriated under such permits and licenses shall actually be used for the useful and beneficial purpose for which said water was appropriated, but no longer; and every such permit or license shall include the enumeration of conditions therein which in substance shall include all of the provisions of this section and likewise the statement that any appropriator of water, to whom said permit or license may be issued, shall take the same subject to such conditions as therein expressed; *provided*, that if, at any time after the expiration of twenty years after the granting of a license, the state, or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the state shall have the right to purchase the works and property occupied and used under said license and the works built or constructed for the enjoyment of the rights granted under said license; and in the event that the said state, city, city and county, municipal water district, irrigation district, lighting district or political subdivision of the state so desiring to purchase and the said owner of said works and property can not agree upon said purchase price, said price shall be determined in such manner as is now or may hereafter be determined in eminent domain proceedings. If it shall appear to the state water commission at any time after a permit or license is issued as in this act provided that the permittee or licensee, or the heirs, successors or assigns of said permittee or licensee, has not put the water granted under said permit or license to the useful or beneficial purpose for which the permit or license was granted, or that the permittee or licensee, or the heirs, successors or assigns of said permittee or licensee, has ceased to put said water to such useful or beneficial purpose, or that the permittee or licensee, or the heirs, successors or assigns of said permittee or licensee, has failed to observe any of the terms and conditions in the permit or license as issued, then and in that case the said commission, after due notice to the permittee, licensee, or the heirs, successors or assigns of such permittee or licensee, and a hearing thereon, may revoke said permit or license, and declare the water to be unappropriated and open to further appropriation in accordance with the terms of this act. And the findings and declaration of said commission shall be deemed to be prima facie correct until modified or set aside by a court of competent jurisdiction; *provided*, that any action brought so to modify or set aside such finding or declaration must be commenced within thirty days after the service of notice of said revocation on said permittee or licensee, his heirs, successors or assigns. And every licensee or permittee under the provisions of this act if he accepts such permit or license shall accept the same under the conditions precedent that no value whatsoever in excess of the actual amount paid to the state therefor shall at any time be assigned to or claimed for any permit or license granted or issued under the provisions of this act, or for any rights granted or acquired under the provisions of this act, in respect to the regulations by any competent public authority of the services or the price of the services to be rendered by any permittee or licensee, his heirs, successors or assigns or by the holder of any rights granted or acquired under the provisions of this act, or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the state or any city, city and county, municipal water district, irrigation district, lighting district or any political subdivision of the state, of the rights and property of any permittee or licensee, or the possessor of any rights granted, issued, or acquired under the provisions of this act. The application for a permit by municipalities for the use of water for said municipalities or the inhabitants thereof for domestic purposes shall be considered first in right, irrespective of whether they are first in time; *provided, however*, that such application for a permit or the granting thereafter of permission to any municipality to appropriate waters, shall not authorize the appropriation of any water for other than municipal purposes; and *providing, further*, that where permission to appropriate is granted by the state water commission to any municipality for any quantity of water in excess of the existing municipal needs thereof, that pending the application of the entire appropriation permitted, the state water commission shall have the power to issue permits for the temporary appropriation of the excess of such permitted appropriation over and above the quantity being applied from time to time by such municipality; and *providing, further*, that in lieu of the granting of such temporary permits for appropriation, the state water commission may authorize such municipality to become as to such surplus a public utility, subject to the jurisdiction and control of the railroad commission of the State of California for such period or periods from and after the date of the issuance of such permission to appropriate, as may be allowed for the application to municipal uses of the entire appropriation permitted; and *provided, further*, that when such municipality shall desire to use the additional waters granted in its said application it may do so upon making just compensation for the facilities for taking, conveying and storing such additional water rendered valueless for said purposes, to the person, firm or corporation which constructed said facilities for the temporary use of said excess waters, and which compensation, if not agreed upon between the municipality and said person, firm or corporation, may be determined in the manner provided by law for determining the value of property taken by and through eminent domain proceedings.
